

Flash-Tape

Flash-Tape is an extremely effective bird repellent. The reflection from the sun is effectively used with a combination of silver and gold flashes that will repel most bird species including sparrow, finch, starling, pigeons, geese and many more.

This is an ideal product to protect crops against bird damage.

Flash-Tape can be tied to branches, poles or even to strung rope. Use 500mm lengths at consistent intervals 5-10m apart.

Height: 500mm above area to be protected in direct sunlight.

Roll length: 150 meters
Thickness: 50 micron
