

RADIATE

Systemic control of thorn trees and other weeds

(L. 9569)

Description:

A residual water soluble systemic herbicide acting through the leaves, roots and cut surfaces for the control of certain woody plants, as listed in grazing, conservation areas and on non-cropland.

Active Ingredient:

Picloram(asPotassiumsalt)240g/l

Advantages:

- **Systemic action:** Controls plants right down to the roots.
- **Good control** on thorn species.
- **Cut stump and frill** treatment with water.

Application rates:

- **Foliar spray:**
100ml/50ml mineral oil/ 10L water
- **Cut stump treatment:**
50ml–300ml/10L water
- **Frill application:**
200–600ml/10L water

Remarks:

Do not apply close to non target vegetation.

Pack size:

5liter, 20liter
