

FLY FREE TRAP

HIGH-CAPACITY RE-USABLE FLY TRAP

Efficient Fly Control which Really Works

The Fly Free Trap is a high-capacity fly trap with a unique non-toxic highly attractive, food-based lure.

Product Benefits:

- 100% Natural and Pesticide Free.
- Simple and easy to maintain.
- Available in two sizes (5ℓ & 10ℓ).
- Unique uni-directional cones allow flies to enter the trap and stop them from escaping.
- Unique and highly attractive food-based lure.
- Use outside animal housing, food preparing- and hospitality areas, domestic homes and any other public facilities where flies are a problem.

How to Use:

1. Place the fly-free granule sachets into the fly free trap.
2. Add water and mix carefully.
3. Secure the lid and hang in areas where flies are a nuisance.
4. Traps are ideally placed 1.5 meters above the ground.

Product Notes:

- Empty trap every 30-60 days.
- Hang 1-30 meters away from buildings.
- Use multiple traps in a perimeter around buildings.
- Do not allow the liquid inside the trap to evaporate completely (top up with water from time to time).

Available Sizes:

- ENFF1002: 5ℓ Fly-Free Trap Unit
- ENFF1001: 10ℓ Fly-Free Trap Unit
- FRU001: 400 g Fly-Free Bio Lure
