

Micro-Encapsulated Advanced Insecticide

Bombex® Lambda 10CS is a broad spectrum micro-encapsulated insecticide for the control of mosquitoes, ants, cockroaches, flies, hide & skin beetles and larvae, litter beetles and other beetles, ticks in farms, animal housings, houses, hotels, hostels, restaurants, kitchens and other breeding places.

Product Benefits:

- Contact & stomach mode of action with repellent properties.
- The micro-capsule properties result in the product having long residual action, up to 6 months.
- Resistant to rain and UV light.
- Increased effectiveness with better retention on all surfaces.
- The micro-capsules attached to the body of the insect resulting in prolonged exposure and infection of the nest.
- Safe to apply in residential, agricultural & commercial areas.
- The rapid knock-down effect allows the product to work immediately when applied.
- Low application rate and highly cost effective.

Active Ingredient:

Lambda Cyhalothrin (Pyrethroid) 100 g/ℓ

Effective Against:

Mosquitoes, Ants, Cockroaches, Houseflies, Hide & Skin Beetles, Litter Beetles and Ticks.

Product Notes:

- Poisonous when swallowed, inhaled or absorbed through the skin.
- Toxic to fish and other aquatic life, do not contaminate ponds or waterways with the product or container.

Available Sizes:

- BOM04: 100 mℓ
- BOM01: 500 mℓ
