QUICK BAIT®
SPRAY

Rapid Results, Lasting Impact.

Devastating Demise of Fly Infestations.

Product Features:

Formulation Type: Water-Dispersible Granules (WG)	The formulation is a sugar based water dispersible granule which dissolves easily in water.
Active Ingredients: Imidacloprid 100 g/kg (4A: Neonicotinoid) and Tricosene 1 g/kg (pheromone)	**Residual Action:** Offers up to 4 weeks of residual action, eliminating the need for frequent reapplications.
Properties: **QuickBait® Spray** is an Attractive Spray or Paint-On Fly Bait.	Two application methods allow for personal preference and flexibility e.g spraying for larger areas and painting for more targeted applications. Both methods are easy to use and provide effective coverage.
Packaging: 750 g Bottle	Provides approx 12 applications per bottle, making it a cost-effective and efficient solution.
Areas of Use:	Food Handling Plants*, Animal Housing, Refuse Tips, Domestic Premises, Industrial Premises

* when used outdoors

Active Ingredients:

QuickBait® Spray is a water-dispersible granule containing Imidacloprid 100 g/kg (a 4A: Neonicotinoid) and Tricosene 1 g/kg (a pheromone).

Benefits:

- **Targeted Control -** The pheromone component of **QuickBait® Spray** attracts flies specifically to treated areas. There's no need to treat an entire area. Simply apply **QuickBait® Spray** over appropriate surfaces to attract flies. Once they land and feed on the treated area, they are eliminated.
- **Long Lasting Residuality - QuickBait® Spray** offers effective protection against fly infestations for 4 weeks. This long-lasting residual effect reduces the need for frequent reapplications.
- **Fast Acting -** The potent **QuickBait® Spray** formula, containing Imidacloprid, delivers rapid knockdown to eliminate flies fast.
- **Tough on Flies, Gentle to Animals -** The innovative formulation and targeted action of **QuickBait® Spray** minimizes the risk of exposure to non-target organisms. When applied correctly, it does not compromise the safety of people and animals.

Always follow the label instructions carefully for optimal safety and effectiveness

Usage and Application:

SPRAY ON APPLICATION:
62.5 g **QuickBait® Spray** / 1 l water / 25 m^2 ground area.

PAINT-ON APPLICATION:
62.5 g **QuickBait® Spray** with 50 mℓ warm water / 25 m^2 ground area.

Mode of Action:

The sex pheromone (Tricosene) scent lures the flies in to make contact with the Imidacloprid.
Imidacloprid tricks the fly's nerves into sending the wrong signals, leading to its demise.
